

GP Super Clinic Hume

Located in the Broadmeadows Central Activity District in western Melbourne, the Hume GP Super Clinic provides same day multidisciplinary ambulatory diagnosis and treatment services as well as general practitioner services and urgent care services for people with conditions that are low in complexity.

The model of care enables health professionals to work in a team environment that facilitates staff to cross barriers that often exist between hospitals, community providers and GPs.

Kane Constructions was awarded the \$7 million lump sum contract in late 2013 and practical completion was reached in November 2014.

The project comprised a new 2500m² two level building and is the second such project delivered by Kane following the Belmont GP Super Clinic completed in 2010.
