

Guardian Angels Primary School

Kane were awarded this \$0.5m project in 2007 following a competitive tender.

The construction of a new covered sports arena and school canteen included a polycarbonate clad structural steel canopy on bored piers over a reinforced concrete basketball / volleyball court surface. Works to the new canteen included split-face blockwork and incorporated a commercial grade stainless steel kitchen fitout.

Additional works included the landscaping of an adjacent playground area including the installation of synthetic rubber surfacing.
