

Springfield Medical Centre

Springfield Medical Centre was awarded to Kane Constructions in 2009 off the back of an outstanding result at Murrumba Downs Medical Centre for Primary Health Care.

The existing Medical Centre was kept open for the duration of the project as it was completed in two halves.

Noise and dust minimisation was paramount and a unique engineered wall and ceiling system was designed and constructed to combat pre-existing ground settlement issues. The Centre was handed over ahead of time and was hailed a huge success by all stake holders.
